

COVID POLICY SEPTEMBER 2021 KNOWLES STUDIOS

The studio has put in place a new policy that everyone must follow. As a small business we need to have rules and policies in place in order for our business to keep open and prevent the business closing. We understand there is guidance and rules in place but please note we will have our own rules to keep our business running as smoothly as possible.

- It is your duty of care to tell us immediately if your child or anyone within in your household tests positive. We will need to know ASAP, even if this is a positive LTF test.
- If the student who attends the studio has come into close contact with someone with Covid, especially if it is within your household we will need to be informed asap. We cannot risk students coming along to class as we have learnt it can spread very quickly! This can then lead to class closures and teachers not being able to teach which will then resort to the business having to close. Lessons can be done via zoom. Please call us asap if this happens and we will advise you on the next step.
- Drop and go system will remain in place to reduce overcrowding in reception.
- All members to regular use hand sanitiser upon arrival.
- We will require proof of negative LTF test if your child has had Covid and their isolation has finished before entering the studio.
